Subject: Spill Notification

Good evening,

I am emailing to inform you that on Jan 31st a maximum 5300m³ of water from Drainage Pond 4 passed through the ponds' spillway toward the lease boundary north of Kearl. The cause of the release is unclear and investigation is underway. There is no evidence of impact to wildlife or vegetation.

Our next meeting is in calendar for March and we can follow up with you at that time, please do reach out with any questions or concerns.
